English

PROFILE

Fresher FullStack Developer with proficiency in HTML, CSS, and JavaScript, complemented by expertise in frameworks such as Bootstrap and React.js. Back-end skills include working with Express.js and Django, along with database management using MongoDB. Well-versed in state management with Redux Toolkit and proficient in API testing using Postman. A versatile developer with a strong foundation in both front-end and back-end technologies, equipped to create seamless and responsive web applications.

WORK EXPERIENCE

INTENSHIP - FRONT END

Senchola University   2023-2024

Interned at Senchola University, gaining hands-on experience in front-end development. Applied and enhanced skills in HTML, CSS, and JavaScript to contribute to the development of responsive and user-friendly web interfaces. Collaborated with a team to implement Bootstrap and React.js frameworks, ensuring a modern and dynamic user experience. Acquired proficiency in working with state management through Redux Toolkit and actively participated in the development of interactive web applications. Demonstrated adaptability and eagerness to learn while contributing to the overall success of the projects.

INTENSHIP - FULLSTACK

NoviTech   2023-2024

Full-stack developer at NoviTech, demonstrating proficiency across the entire web development stack. Applied front-end skills in HTML, CSS, and JavaScript to create intuitive and responsive user interfaces. Utilized frameworks like Bootstrap and React.js for efficient front-end development. Implemented back-end solutions using Express.js and Django, ensuring robust server-side functionality. Managed databases with MongoDB and incorporated Python for comprehensive development. Successfully collaborated on end-to-end project lifecycles, from concept to deployment. Experience in API testing using tools like Postman and proficient in state management with Redux Toolkit. A versatile developer contributing to the seamless integration of front-end and back-end technologies at NoviTech.

PROJECTS

TEAM PROJECTS:

GMART ECommerce Site - React
Online Election System - HTML,CSS,JS,PHP
